Afin d'optimiser le temps de chargement de nos polices sur le Web nous vous proposons deux versions de Webfonts :

1 Le dossier *WEB-Reduced_version* contient des fichiers se terminant par *WEBL* et dont le jeu de caractères a été réduit pour diminuer le poids de chaque Webfonts.

2 Le dossier *WEB-Full_version* contient des fichiers se terminant par *WEB* dont le jeu de caractères est complet et identique aux versions *Desktop*.

Dans ce document vous trouverez le détail de ces jeux de caractères.

In order to minimize our fonts loading time on website we offer two versions for Webfonts:

1 The folder *WEB-Reduced_version* contains files ending with *WEBL* for which the character set has been cut to lighten the Webfonts.

2 The folder *WEB-Full_version* contains files ending with *WEB* that have a full character set, identical to Desktop versions.

The character sets for both version are detailed below.
